Dear Salim,

Thanks for your last e-mail. I really liked the photos you attached with your e-mail. They were helpful. I use them in my project about old cities. Now I am doing a new project about famous food around the world.

You asked me about my coming exams. They will start next week. I will have two exams on the first day English and sport. I am good at English and I like reading stories to be a good student. It is my favorite subject. I am afraid of science because there are a lot of information that we must memorize. I will study it with my friend Fahad. He is good at science and math. What about your exams?

Waiting to hear from you.

Thank you

Sultan

Listening script 2

Many years ago, men were fishermen, farmers, handicrafts makers and pot makers. Women made caps and clothes. Only boys were allowed to go to school. There weren't any schools for girls. People used to live in small houses made of mud and stones. Moreover, they didn't have any hospitals. They only used traditional medicine made of plants. People used donkeys and camels to travel from one place to another. People used oil lamp and candles for lighting.
